

New Residential & Employment Site at Former Brodsworth Colliery

Consultation Event: Progress Update

Monday 9th June 2008

All Saints Church, Quarry Lane, Woodlands, Doncaster, DN6 7RT

All welcome between 5.30pm and 8.00pm

Introduction

We are currently presenting plans to residents for a residential scheme on the former Brodsworth Colliery site in advance of submitting a planning application to Doncaster Metropolitan Borough Council. We are also showing proposals for an employment site and a single wind turbine. These will also form part of the application.

The proposed site is located to the south of Long Lands Lane and to the west of the Model Village.

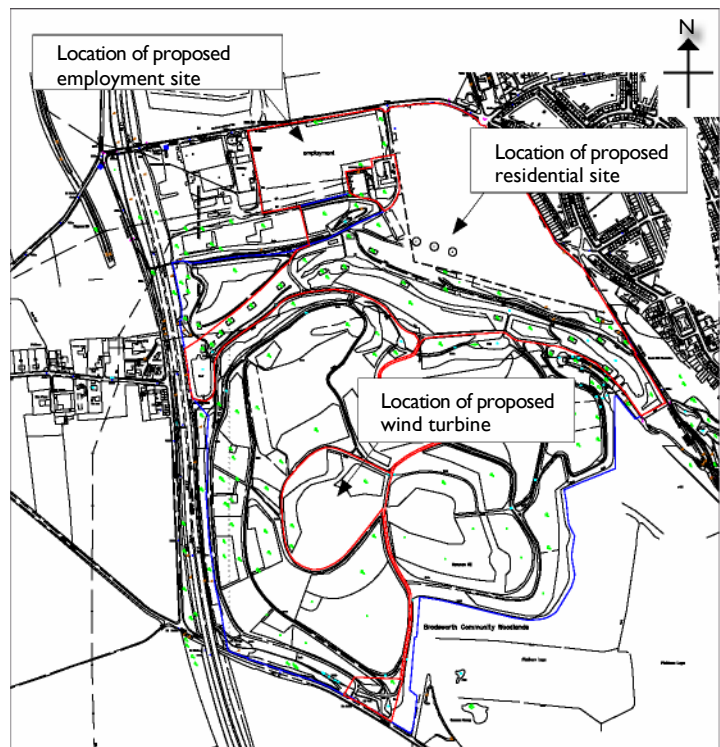

Consultation details

We will be holding a drop-in session to discuss the current options for the Brodsworth Colliery site.

People are more than welcome to call in between 5.30pm and 8.00pm at All Saints Church to see the new proposals and discuss their ideas, thoughts or concerns.

We are aware that we can not physically contact every member of the community and would therefore appreciate it if you could spread this information by word of mouth to local neighbours, friends and established groups.

Many thanks.
